

Assistant Manager-Quality Assurance

Custom Biologics™ is contract research laboratory that specializes in custom bioanalytical and bioassay method development and validation. We have an immediate opening for an Assistant Manager in our Quality Assurance group.

As the Bioanalytical Quality Assurance, Assistant Manager you will:

- Oversee proper implementation of the company's quality system.
- Provide regulatory guidance and training.
- Perform routine laboratory audits.
- Prepare SOPs in accordance with company's procedures.
- Review study reports for data accuracy, adherence to protocol, format & quality.
- Ensure records, documents, log books, SOPs and practices comply with company policies, procedures and regulatory requirements.
- Oversee and manage equipment calibration and validation program.

Qualifications Required:

- A Bachelor's degree in a science related discipline with 3 years of quality assurance experience in a bioanalytical GLP environment.
- Possess knowledge of GLP and GMP regulations in accordance with FDA, ICH and OECD guidelines.
- Knowledge of bioanalytical software, equipment.
- Knowledge of computer, software validation requirements.
- Excellent communication and interpersonal skills. Excellent organizational skills a must.
- Results-oriented, positive 'can-do' attitude.
- Willingness to learn on the job.
